Massage systems

HYDRO MASSAGE

For optimal comfort, each hot tub is equipped with 6 hydro massage jets in the inner section and an additional 6 in the outer section.

Benefits of regular hydro massage:

- Effective relief from muscle pain
- Full-body relaxation and reduced tension
- Improved physical endurance and resilience
- Reduced stress levels and helps manage anxiety
- Enhanced blood circulation
- Strengthened immune system, better sleep quality, and increased overall energy

AIR MASSAGE

To deliver the ultimate air massage experience, our system features 12 air jets in the inner tub and an additional 12 in the outer tub.

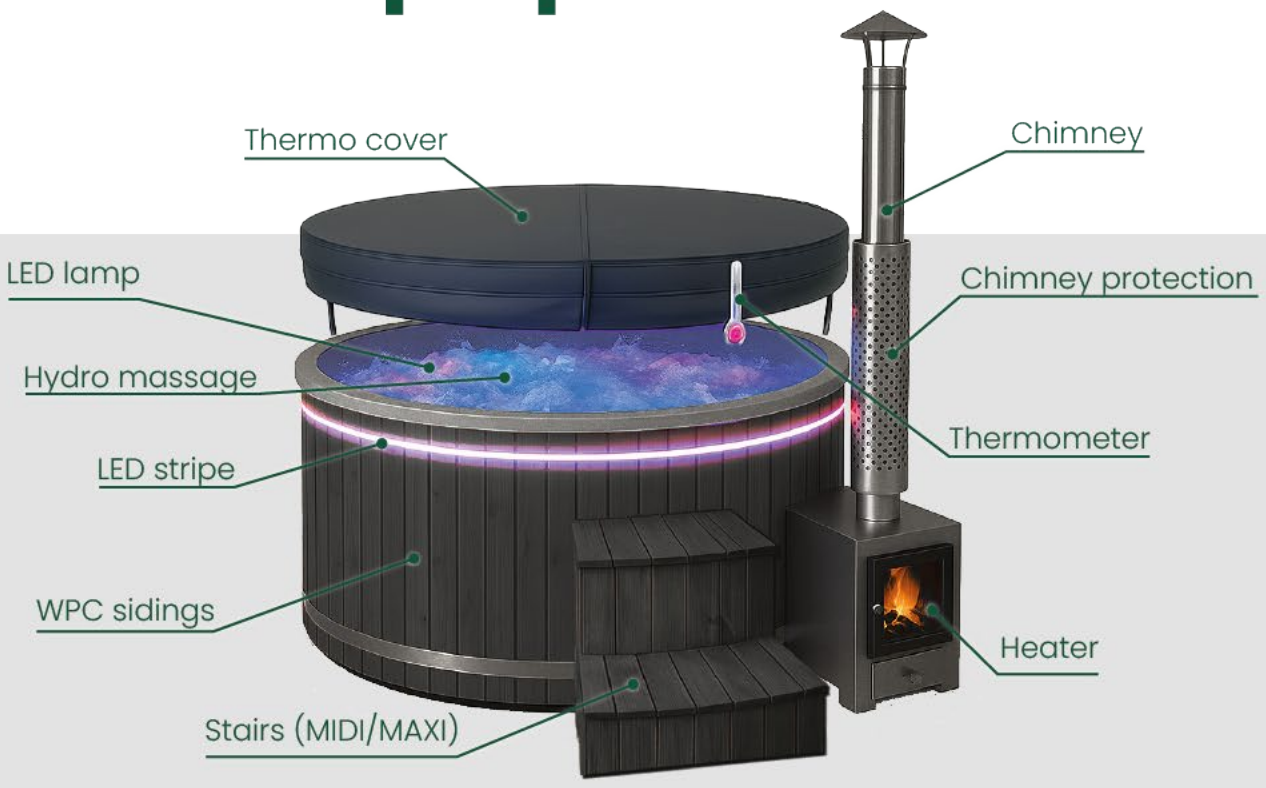

Positive features of air massage:

- Stimulates nerve endings and sensory receptors
- Enhances overall blood flow and peripheral circulation
- Supports more efficient oxygen absorption by tissues
- Promotes skin hydration and restores its natural vitality
- Strengthens the immune system
- Ideal for managing stress and relieving physical tension
- Contributes to improved sleep qualityverall energy
